OBJECTIVE

My interest in the role modern computational power can have on the human experience has drawn me into the field of Computer Science—to gain a deeper more holistic understanding of how people can leverage computing resources to shape the world around us.

EXPERIENCE WITH TOOLS

ASP.NET/MVC 5 Framework

Worked on multiple projects using this framework for class assignments.

- Dynamic web-page scripting (AJAX)
- Database connection (SQL Server, LINQ)
- Cloud deployed (Azure)

Version-control

Used Git to manage project source code.

- Git BASH work flow
- Forking and Pull requests

Databases

- Information Security & Assurance
- Relational Database designs
- NOSQL data stores

Misc. Tools

- AGILE & DAD development practices
- Linux flavor OS's
- Information Systems
- REST APIs
- MS Visual Studio / Azure
- Android Studio
- Node/React JS
- Slack

PERSONAL STRENGTHS

- Ability to collaborate well and work with a team on time sensitive projects
- Fast learner and eager to apply/further develop my skill set
- Reliable and committed to the fulfillment of project visions

STRONG LANGUAGES

- C++ (3 Years)
- C# (2 Years)
- Python (2 Years)
- HTML/CSS/JS (2 Years)
- SQL (1 year)
- Haskell (1 year)

EMPLOYMENT HISTORY

UCS Service Request Desk	WOU UCS	Monmouth, OR	2019-Curr.
Apprentice Steamfitter/Welder	Local 290	Tualatin, OR	2013-2016
Volunteer Counselor	OR science school	Salem, OR	2013

EDUCATION

Westview High school	HS Diploma	2013
Local 290 Apprenticeship	Steamfitter/Welder	2013-2016
Western Oregon University	B.S. Computer Science	Projected Grad 2020
